Versatile Desktop Label Printers

Brother’s PT-D410, PT-D460BT, and PT-D610BT desktop label printers offer versatile solutions for all labelling needs, including SOHO/home office, large office, retail environments, as well as for broader business vertical applications.

Simple one-touch solutions

With a built-in QWERTY keyboard and large graphical display which includes a print preview, these PT-D series label printers are user-friendly and designed for ease of use and fast typing with optimal desktop handling.

Expanded options for label creation

PT-D series desktop label printers are ideal for straightforward standalone use. These label printers support PC and Smartphone connections*.

With additional label design functions, these label printers can be paired with Brother’s iPrint&Label app and P-touch Editor 6 software for expanded options such as creating labels beyond the basic use.

Specially designed and ready-made templates are available for use. Labels can also be customisable to fit any individual requirements.

PT-D Series line-up

PT-D series label printers offer a diverse range of labelling features for home offices, larger offices, co-working spaces, and retail environments. With three label printers to choose from, greater flexibility, connectivity, and functionality are offered.

Each label printer is designed with specific environments in mind and is equipped with features to suit any end-user’s needs.

Select from the basic standalone entry model, PT-D410 label printer to the more advanced PT-D610BT label printer to print labels using iPrint&Label app.

Durable TZe laminated tapes

Specifically designed for P-touch range of label printers, Brother's TZe laminated tapes have been rigorously tested to withstand up to even the harshest conditions. With excellent resistance to water, abrasion, chemicals, and extreme temperature, TZe laminated labels remain legible over time.

TZe laminated labels are easy to peel and stick and they come in a variety of colours, widths, and sizes. From standard laminated to Matt and Premium laminated tapes, TZe tapes are suitable for almost any application and are designed to work perfectly with P-touch label printers.

PT-D610BT

Home Office / SOHO

Transform home working space with a professional label printer from Brother. PT-D410 and PT-D460BT label printers are compact, easy to use, and can print laminated labels for important files and folders.

Identify office equipment, cables and organise storage boxes. Label items to achieve an organised work space which will increase overall productivity and allows the focus on the real task on hand.

Office

From organising files, assets to workspace and meeting room organisation, PT-D460BT and PT-D610BT label printers can help to create an organised and comfortable working environment for all employees, resulting in maximum productivity in the office.

PT-D460BT and PT-D610BT label printers can also make life straightforward with the easy creation of visitors' name badges and office signage labels for the office.

Retail

Conveying product information and special offers to customers quickly is crucial in any retail environment.

With PT-D610BT label printer, print QR codes for customers to scan, as well as durable barcode labels to keep track of stock inventory, which will increase the overall efficiency of the stock management system and keep track of what the customers require.

PT-D610BT label printer can help to optimise business day-to-day operations for both the retail floors and behind the retail scenes which will enhance customer experience.

Software and applications

P-touch Editor 6

Create durable labels with a P-touch label printer connected to a computer via USB connection.

P-touch Editor 6 is a complimentary software which offers newly updated features ranging from an increased number of specially designed templates, additional numbers, time and date, and barcodes with an overall refreshed user interface for a truly connected solution for creating customised labels.

Key features:

- Wide range of pre-designed templates for a variety of home office and business applications.
- Customisable templates for flexible editing with over 1200 symbols and more than 30 fonts.
- Easy retrieval of labels created in the past, or share labels to iPrint&Label apps with a Smartphone.
- Import Excel® database or any other databases directly into P-touch Editor 6 software.
- Straightforward 1D and 2D barcodes label creation.
- Create multi-lingual labels containing different language symbols using Unicode (UTF-8).
- Customise labels with a company logo.

iPrint&Label App

iPrint&Label is a free mobile app that enables the easy creation and printing of labels from Apple® iPhone® or iPad® via Bluetooth® wireless connection to a P-touch label printer.

Create labels using P-touch Editor 6 software and share to a Smartphone or tablet to print, save or edit on iPrint&Label mobile app for a fully integrated solution.

App Store

Google Play

Key features:

- Fully customisable layout, including the option to add boxes, lines or move objects, as well as resizing or rotating.
- Access to pre-designed templates.
- Hundreds of symbols and clipart.
- Add images, photos and logos to label.
- Add barcodes to labels, including QR code and 1D barcode.
- Improved and modern looking user interface for ease-of-use, including the ability to quickly reprint saved or frequently used labels which save time.
- Import contact details directly from a Smart device onto the labels.
