Over 600 symbols

Built-in editable label design templates

Easy-to-type QWERTY keyboard

Use 6 pcs of Alkaline batteries or AD-E001A AC Power adapter (not included)

## TZe laminated labels - designed to last

Brother TZe laminated tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The direct thermal transfer ink is sandwiched between two protective layers of PET (polyester film) which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels are tested to the extreme, professional quality labels have been designed to last.

Laminated

Temperature Resistant

Water Resistant

Fade Resistant

Abrasion Resistant

Chemical Resistant

Easy Peel

Strong Adhesive

# Clearly identify items with a durable TZe laminated label

Around the home, office, school, shop and work, there are many uses for long lasting and durable TZe laminated labels. Common examples include:

Cables and plugs, USB flash drives, Office equipment, File folders, Staff and visitor name badges, Filing cabinets, Signage, Mail rooms, Notice boards, Shelves, Telephone extension numbers.
